THE QUALITIES OF GREAT CLASSROOM FURNITURE

Great classroom furniture adapts to the lesson plans of today and tomorrow. Your classroom furniture will transition from independent reading and writing assignments to group projects. Here are a few things to consider when choosing furniture.

Mobility

How often does your classroom change per week? Would you benefit from desks and chairs on casters or is it better to be stationary?

Height

What age group do you have to accommodate within your classroom? Do you want a space that promotes both sitting and standing?

Technology

What type of devices are deployed in your classroom and how do you keep them charged? Do you need furniture that accommodates power?

Storage

How do you plan on avoiding clutter while keeping things organized for ease of access?

Color

What type of energy do you want to promote in your classroom? What are your school colors?

Want to discuss these questions further?

CONNECT WITH A REPRESENTATIVE

Hokki Stool

Ideal for group brainstorming, circle time lessons or reading time in an early education environment.

CREATE YOUR PERFECT CLASSROOM WITH THESE **FLEXIBLE IDEAS**

UNO-M Student Desk

This desk features a small and mobile footprint with plenty of storage. Pairs well with PantoSwing chair.

ELO Connect 8 Desk

These versatile tables can be easily adapted for large groups, small teams or individual learning activities.

Shift+ Thumbprint

This desk can be used independently or combined for collaboration. Stack up to 6 of them together to easily put them away.

LiteTable-ST

The LiteTable-ST offers the ultimate flexibility for multi-use spaces and agile classrooms.

PantoSwing

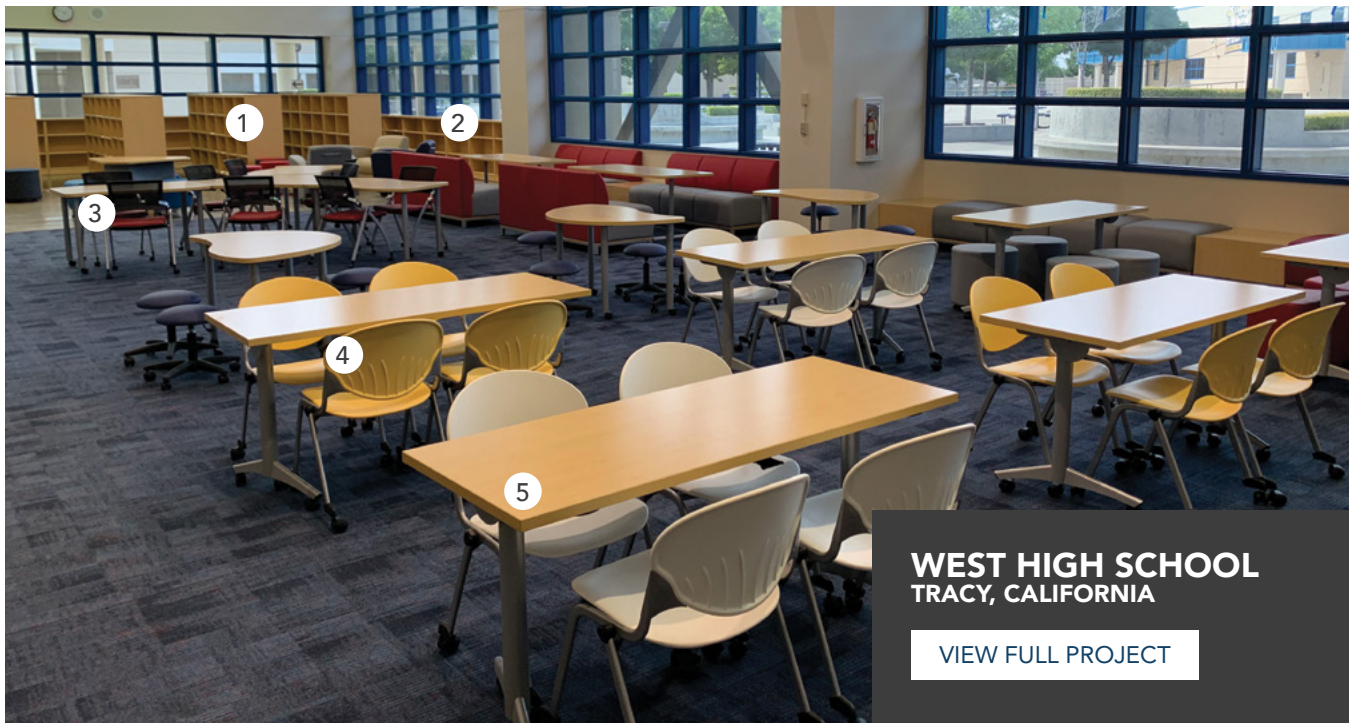

The PantoSwing encourages regular changes in sitting positions, which has been shown to activate both the body and mind, and to increase the attention of students.

LIBRARIES, MEDIA CENTERS & STUDENT UNIONS

TRANSFORM YOUR LIBRARY

You can transform any traditional library into a 21st century learning commons with a bit of vision, innovation, and imagination. Check out these gorgeous libraries, media centers, and student unions to inspire your next transformation.

3 TIPS TO BRINGING A SPACE TOGETHER

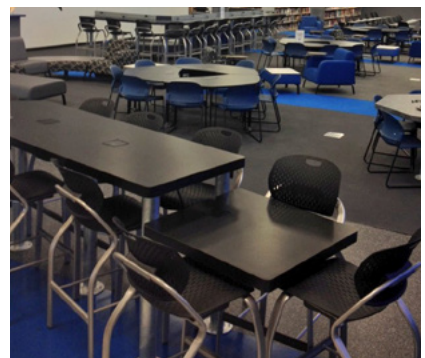

School Colors

Use paint, fabric, work surfaces, and floor treatment to tie in school colors.

Mascots and Slogans

Big walls are perfect for murals that encourage a sense of belonging.

Collaboration

Promote collaboration by offering mobile furniture at varying heights.

OUTDOOR ENVIRONMENTS

OUTSIDE THE CLASSROOM

Learning goes beyond the classroom. Create intentional spaces that both support and promote collaboration, connection, and independent study. Foster creativity by thinking outside the building.

OUTDOOR FURNITURE CONSIDERATIONS

Durability

High quality raw materials and workmanship makes a difference when facing the elements.

Comfort

Consider ergonomics because the outdoors should be as comfortable as the indoors.

Shade

Sun exposure can impact your students as well as the furniture you choose.

Interaction

Before choosing furniture, decide how you want your students to use it.

Color

Your school colors can be represented both inside and outside.

Customization

Logos and slogans can be front and center in outdoor learning spaces.

ADDITIONAL RESOURCES

Dive deeper into creating learning spaces
with these two additional resources.

PROJECT PORTFOLIO

View more flexible, agile and collaborative learning environments where teachers love to teach and students love coming to school.

ABOUT US

ABOUT US

Representing the nation's leading furniture manufacturers, our team offers full-service project implementation including design, sourcing, project management and installation. We specialize in STEM/STEAM rooms, computer labs, libraries, classrooms, office space, training environments and conference rooms. We integrate functional design with high-quality products to create cost-effective solutions for your district project.

Serving schools since 1972, our point of difference is putting our heart and soul into every project. On every project, we do our very best to work with local participants to determine the goals and objectives of the project. We then develop a plan and select products to fit the project requirements, and coordinate all aspects of the effort from start to finish.
